NINE DAYS LATER FROM EUROPE.

Arrival of the Great Western. The steamship GREAT WESTERN, Captain Hosken, ar rived at this port about 3 o'clock last evening, is fourteen days from Bristol, whence she sailed on the 27th ult. By this arrival we have our regular files of London papers to the evening of the 26th.

The intelligence from Eugland is of decided interest. There is a strong gleam of HOPE FOR THE PRESIDENT STRAM SHIP, of which full particulars will be found below.

Great Britain is convulsed by the preliminary throes of a zealous political contest. The Whig Ministry, signally defeated in several successive divisions in the House of Commons, have been prevented from resigning according to the British custom, by the personal entreaties of the Queen su peradded to their own inclinations. Defeated afresh en their proposition to modify the sugar duties, and not during to press to a division their motion for a reform of the corn laws, they proposed a brief adjournment to enable them to look about and take breath. They have been met, however, by a proposition of the Tory leader in the Commons Sir Robert Peel, that the present Ministry de not sufficient ly possess the confidence of Parliament to enable them to earry on efficiently and usefully the government of the country. The debate on this proposition was to commence in the evening of the day the Great Western sailed, and the agitation already excited by it was intense and rapidly becoming universal.

From the tenor and spirit of the London journals, w gather that the defeat of the Ministry on Sir Robert Peol's motion is nearly certain. If not on that, they will inevitably be defeated on their corn law proposition. But still they will not resign, but dissolve Parliament and take the chances of a general election.

This is already regarded as so imminent as well as inevitable that preparations are making for it by both parties. A great City of London Meeting in favor of the modification of the Corn Laws was to be held on the 1st instant. The Tories intended to muster their strength there, and offer an amendment setting forth that in the present state of the Country, the Ministers ought to resign. If they do this, they will be able to break up or defeat the object of the meeting. Violence will very probably ensue.

The Whigs of the City of London are about to formally request LORD JOHN RUSSELL, the distinguished Whig Ministerial Leader of the House of Commons, and the mover of Corn-Law Reform, to stand as their candidate for Parliament in the approaching contest. Of course, he will be elected, after a furious struggle.

There is very little Commercial Intelligence of interest. Scarcely a shade of change in Cotton, Teas, Grain or Stocks. Money was in demand. Exchanges not unfavorable. Business in the Manufacturing Districts was greatly depressed, and severe distress had been experienced.

In the House of Commens on the 24th, Viscount Palmerston stated that instructions had been sent to the British Minister at Buenos Ayres, directing him to offer the good offices of England to the Government of that state for the purpose of setling the disputes existing between Buenos Ayres and Montevideo.

In answer to other inquiries he stated that the only point in dispute between Great Britain and Persia at present was that respecting the evacuation of the fortress of Gourian by the Persia forces.

Lord John Russell said that he had on a former night, in answer to a question put by the right Hon. Baronet the mem-Federal Court, but into the Supreme Court of the State of in Paris. New York, upon a writ of habeas corpus.

The Minister's proposition for a modification of the Sugar Duputies on the 17th, by a majority of 193 against 46. duties was negatived on the 18th by the very decisive vote of 317 to 281 : Tory majority 36.

Hope for the President!

The captain of the Portuguese ship Condo so Palma, which arrived at Lisbon from Rio de Janeiro on the 6th of May, saw a large steamer under canvass on the 23d and 24th April, but did not speak her. election of Chaplain. On the first vote Rev. John W. FRENCH of the Episcopal church, was elected. Mr. SERGRANT, of Pa., asked leave to introduce a resel tion to elect a printer to the House, with a compensation

twenty per cent less than the rates fixed by the joint resolt ion of 1219. Leave was refused. Mr. Woow, of N. Y., asked and was refused leave to offer resolution requesting from the President correspondence between the governments of the United States and Gree

Britain, relating to the American citizens, now British pro oners of state, at Van Dieman's Land, South Australia The motion of Mr. INGERSOLL to consider the vote on the mendment of Mr. ADAMS, by which the 21st rule of a last Congress was dropped, now came up, and the time the House was consumed for three quarters of an hour is discussion whether the motion was actually received. The

debate was interrupted by motions for adjournment, on which the Yeas and Nays were twice called. Mr. INGERSOLL addressed the House at length, entering into a general investigation of the subject of Abolition as exists here, and as connected with the prevalent opinions Europe and France on that subject. His speech is not con cluded. Thus, to the neglect of the 'weighty and important business' for which Congress was convened the door is oper
